

## UNKNOWN SOLDIER WILL LIE IN STATE

Imposing Honors to Be Paid  
Man Who Symbolizes National Heroism.

### PRESIDENT THE ORATOR

Generals and Admirals Selected for Pall Bearers for Ceremony at Capital.

### COUNTRY TO PAY TRIBUTE

Two Minute Period of Silence  
by All the People Requested  
in Proclamation.

The name, rank, organization, record and place of battle-death of the unknown American soldier who will be buried in Arlington Cemetery at Washington on Armistice Day, November 11, while President Harding and the highest officials of the nation stand by with bared heads and millions of the country over observe a two minute period of silence, must remain forever unknown. The selection of the fallen American hero is to be made under such circumstances that the secret of his identity and service never can be penetrated. This was made known yesterday when official orders relating to Armistice Day observance were issued from the office of Major-General Robert Lee Bullard, commanding the Second Corps Area, Governors Island. After selection in France has been made in such a way as positively to preclude future identification, the body will be prepared for transportation under orders of the quartermaster and will be taken to Havre, where a Commanding General of the army, selected from the American force in Germany, and a Rear Admiral of the navy will join the French in a memorial observance. The navy will receive the body at Le Havre and provide escort to the cruiser Olympia, on which the symbolic dead will be transported to Washington.

The Olympia is under orders to reach

Washington on November 9, after dark, and to deliver the coffin to a Major-General of the army and a guard of honor, with appropriate bearers. Then the body will be borne to the rotunda of the Capitol, where it will lie in state during November 10 and until 8:30 A. M. on Armistice Day. The orders provide for a funeral escort in compliance with army regulations. This will be made up of a battalion of field artillery, a squadron of cavalry, a combat regiment of foot troops (infantry of the Regular Army), a battalion of sailors and marines, a battalion of the National Guard and the Marine Band. Artillery and cavalry from Fort Dix, New Jersey, have been ordered to represent these branches in the escort.

Eight general officers of the army, to be selected by the Secretary of War, and four Admirals or general officers of the navy and Marine Corps, to be selected by the Secretary of the Navy, will compose the pallbearers for the 10,000 of the unknown dead. They will form in the rotunda of the Capitol at 8:30 A. M. November 11. The body bearers, who will be selected on the basis of their war records, will be five non-commissioned officers of the army and three petty officers of the navy and Marine Corps.

#### Mourners to Represent All

The official mourners, according to the orders issued yesterday, will be all living holders of the Congressional Medal of Honor who desire to attend, one representative for every 10,000 of the 4,764,071 of the armed forces in the war, an officer and enlisted representative from every arm of the army and navy, a member of the American Legion from each State and Territory and one member from each of the other permanent veterans' societies. Each patriotic society is asked to select a representative also, with the suggestion that all official mourners should have served in the armed forces at some time.

The funeral procession will leave the Capitol at 9 A. M. and go to the Arlington Memorial Amphitheatre by way of Pennsylvania avenue and M street, the Aqueduct Bridge and Military road, through Fort Myer and the west gate of the cemetery. Infantry will line both sides of the route, 5,000 men having been assigned for that duty alone. The men will be posted at five yard intervals over the entire route. The duty will be shared by regulars and by National Guard troops from the vicinity of Washington.

President Harding, with such official and private associates as he may select, will meet the body of the Unknown American Soldier at the Amphitheatre of Arlington Cemetery and there the President will deliver the oration of the day. Immediately preceding his address there will be the two minute period of silence which the President by proclamation has asked all the people to observe. Until the interment ceremonies are completed minute guns will be fired at Fort Myer and flags on all public buildings will be kept at half staff.

The official orders touch but briefly on the interment services. These will be directed by the Rt. Rev. Charles Henry Brent, former chaplain with the American Expeditionary Forces, assisted by chaplains of the army and the navy. The observance will end at about 2 P. M.

## BENNETT MUST PAY \$40 A WEEK ALIMONY Brooklyn Machinery Man Is Sued for Separation.

In the Brooklyn Supreme Court yesterday Justice Faber allowed \$40 a week alimony and \$150 counsel fees to Mrs. Annie Bennett of 1863 Forty-eighth street, Brooklyn, who has brought suit for separation against her husband, Joseph Bennett, a manufacturer of machinery at 235 Centre street, Manhattan, who, according to his wife, has an income of \$15,000 a year.

The Bennetts were married October 17, 1914, and have four children. Mrs. Bennett alleges that on August 19 last her husband went out of town, without telling her where he was going. Subsequently, she says, she learned that Mrs. Sarah Rubinfeld of 91 Powell street, Brooklyn, had gone to Ellenville, N. Y., and that her husband was found there with Mrs. Rubinfeld.

Bennett declares his wife's charges are due to jealousy.

#### KILLED BY THREE STORY FALL.

Isidore Weinstein, 21, a clerk of 1522 Webster avenue, leaning out of the window in the rear of his home on the third floor at that address, yesterday lost his balance and fell to the yard. He was pronounced dead by Dr. Cuoci of Fordham Hospital.

## HYLAN IS GRILLED FOR SCHOOL NEGLECT

Public Education Association  
Sums Up the City's Short-  
comings.

The Public Education Association fired another blast yesterday at Mayor Hylan and the city administration regarding neglect of the public schools and certain alleged misstatements of fact that have been made recently in efforts to extenuate the conduct of the administration.

"For months we have contended that

the schools are in a sorry plight," the association asserts through its secretary, Howard W. Nudd, "but the City Fathers say we have been mistaken, that there is really nothing wrong, but that everything is satisfactory or nearly so, and surely they must know. We bow to the stern rebuke with contrite heart. But vague regrets will not alone suffice. We must be frank and tell the whole truth, and in justice list these trivial things which led us thus astray. What do you think of them?"

"1. There are only 126,105 children on part time in the city schools. This is only four times as many as there were in April, 1918, and only 40,000 more than a year ago.

"2. There are in addition only about 175,000 children on makeshift double session programmes, and which brings the total number of children deprived of a full day's schooling to only slightly more than 300,000. Think of that for a record!

"3. Just before election, or maybe

later, but at any rate before long, it is expected that more new buildings will be opened, seating approximately 20,000 children, which will make the total number of new seatings almost equal to the number provided by his predecessors, who so unmercifully sacrificed the child to the dollar."

"4. Part time will doubtless be greater next fall than at present, but that is nothing to worry about—now. Why borrow trouble?"

"5. Only 600,000 children, or about two-thirds of the total register, are in oversized classes—classes having forty or more children. Of these only about half are in classes of not less than forty-five, and only a few hundred more than 60,000 in classes of not less than fifty."

"6. Fire violations have been cited by the Fire Department against only 496 out of 895 school buildings. The rest are doubtless safe. The total number of violations is only 7,260, which shows how absurd all this hullabaloo has been. It is true that the Superintendent of Buildings has expressed fear of a possible catastrophe, but he is evidently an ex-

citable person and lacks reasonable patience.

"7. Our old school buildings, even the City Fathers reluctantly admit, have become more or less unsanitary and dilapidated through years of neglect and a false idea of economy. Such petty matters are nothing to get excited about."

"8. While there has been much acrimonious discussion between the Mayor, the Comptroller and the Board of Education, on the one hand, and the City Superintendent and the professional staff on the other, it was clearly demonstrated that however rough in expression, this protracted squabble was really kind at heart. We must learn to understand and appreciate the playful ways of our City Fathers and in line in the true spirit of Pollyanna."

"9. Only \$27,000,000 was ceremoniously cut from the school budget for the current year. That is not nearly so bad as \$40,000,000, or even \$50,000,000. The general public as well as the professional staff should thrill with pride and joy at this unique demonstration of

what can be done for efficiency and well being by officials with imagination and almost uncanny foresight.

"Our woeful ignorance of the real significance of conditions in the schools is manifest. We blush with shame. Our only hope is that this belated apology will be conceded, and that—ever again—we will be charge with control by the interests."
